

Great Northern Railway has decided to suspend operation of all main line trains out of Belfast at night.

William Fleming was shot and fatally wounded this morning on his farm in County Armagh while carrying water for breakfast. He died in the Armagh infirmary. Fleming's father is a member of the Special Constabulary and the attack is believed to have been in reprisal for the shooting of a man by the Specials on St. Patrick's Day.

Lilap Lodge, a beautiful mansion in Tyrone County, was destroyed by fire this morning. The fire was caused by a gas leak, but the rapid spread of flames indicated that petrol had been freely used by the incendiaries.

TELLS REBEL PLAN TO OVERTHROW ALL BY DICTATORSHIP

Correspondent Gives Out What Purports to Be Purpose of Republican Army.

DUBLIN, March 29. (Associated Press).—The convention on Sunday of revolting members of the Irish Republican Army debated the question of declaring a military dictatorship, but deferred action thereon, says the correspondent here of the London Star in a despatch to his paper. He gives as his authority a statement issued from the Beggar's Bush Barracks this morning, which says the proposal before the convention was to overthrow all Governments in Ireland opposed to a republic.

According to the correspondent, the report of the convention is vouched for by the regular general headquarters of the Irish Republican Army in a statement which says the following resolution was offered by Thomas Barry and Frank Barrett:

Resolved, That matters of immediate concern for the Executive will include:

First.—Maintaining Ireland as an independent republic.

Second.—Appointment of a chief of staff, who will appoint a general headquarters staff. Appointments can be vetoed by the Executive.

Third.—Declaration of dictatorship. For this purpose the Executive shall be empowered to recruit the services of others, who need not be members of the Executive, with a view to ordering the dissolution of all pretended Governments in Ireland by the prohibition of Parliamentary elections until such time as an election without the threat of war by Great Britain can be held on adult suffrage.

The statement proceeds:

The dictatorship would overthrow the four Governments in Ireland opposed to the republic, namely, the Dail Eireann, Provisional, British and Northern Governments.

Finally it was decided that the resolution should be submitted to the Executive as a recommendation, and that the Executive should give its considered opinion at the next convention, to be held April 2.

HE LOVED THE CHILD OF WOMAN WHOM ONCE HE WOODED

(Continued From First Page.)

aged friend came to identify the dead man's body, many people have appeared at the City Morgue and the offices of the Editor and Publisher to claim friendship with him. The body is still unclaimed.

By the time Miss Ludwig and her parents reached New York this afternoon it was definitely established that the \$250,000 represented as the face value of securities left by the aged messenger and process-server was virtually worthless. The Toledo, Lorain and North Indian Railroad, of which Reinherd had 1972 shares, \$50 per share, and nearly \$2,000 in uncashed coupons, had gone out of existence in 1916 and the stock and bonds were worthless. The shares of the Sulfur Mining Company, Mexico, of which more than \$100,000 worth were in the bag, seemed to be no good, either. Lists of securities, modern and obsolete, failed to mention this company. This left deeds and promissory notes totalling \$127,000 to be accounted for, but they were so old they were declared virtually worthless by persons who examined the papers.

The will instructed Miss Ludwig to communicate with a Brooklyn lawyer and an appointment was made with him for late today. Miss Reinherd, the sister and beneficiary, could not be located today. Last night she told The Evening World she was not even interested in her brother's death or will. The two had not been on friendly terms.

LONDON SUICIDES ONLY 499 IN 1921 OUT OF 4,500,000

Rate Is But 1 in 9,000; and the Majority Are Between 45 and 55.

LONDON, March 29. Statistics just issued show that only 499 persons committed suicide in London in 1921. If the city's population be taken as 4,500,000, the suicide rate is only one in 9,000.

Most of those taking their own lives were between forty-five and fifty-five years of age. Only eight were under twenty.

500,000 MINERS GET STRIKE ORDER BY WIRE TO-DAY

Officials Admit Little Chance of 200,000 Non-Union Men Joining Walkout.

TO QUIT FRIDAY NIGHT.

Hard Coal Conferees on Wage Scale Here Report "Real Progress."

The cost of strikes in coal mines is \$500,000,000 a year, it has been estimated by experts of the Geological Survey.

In the twenty years from 1900 to 1920, these experts compute, coal miners in the United States were idle 1,156,665,665 working days.

INDIANAPOLIS, March 29.—Telegraphic orders calling on all the union miners to quit work at 12 o'clock on Friday night will be sent out this afternoon from the headquarters of the United Mine Workers.

Every effort is being made by officials to prevent any of the men walking out ahead of time, though they declare there is no likelihood of any move which will prevent the strike going into effect as scheduled.

The order will affect 500,000 men. It is admitted there is little chance that the 200,000 non-union miners will join in the walkout.

CHICAGO, March 29.—Illinois miners will join the nation-wide coal strike set for April 1. No hope of a postponement or of initiation of a separate State wage agreement could be found, Frank Farrington, President of the Illinois miners, told heads of the State Operators' Association in conference here today.

SCALE COMMITTEE OF MINERS MAKE PEACE PROGRESS

Union Figures Show Big Increase in Living Costs in Coal Regions.

The Scale Committee of the miners' union and the anthracite operators resumed their sessions this afternoon at the Union League Club, with Thomas J. Kennedy, President of District No. 7 in the anthracite fields, as spokesman for the workmen.

"We have passed generalities," said Mr. Kennedy, "and are now down to details. Yesterday we presented indisputable figures which showed that the cost of living in the anthracite fields of Pennsylvania, aside from rent, has gone up 25 per cent since the present scale was adopted in 1920. It has increased an average of 60 per cent in all districts since 1920. In some districts it has gone up 75 per cent."

S. D. Warriner of Philadelphia, chairman of the operators' committee, admitted that the believed progress has been and will be made in the direction of an agreement.

VILLAGERS FLEE MT. ETNA ERUPTION

Lava Flowing From Crater Following Several Earthquakes.

LONDON, March 29.—Mount Etna is in violent eruption, says a Central News despatch from Rome, quoting advices from Palermo. Streams of lava are flowing from all sides of the crater, and the inhabitants of the villages on the mountainside have fled from their homes.

Several earthquakes have occurred in Palermo and Messina Provinces in the last few days.

MARRIAGES UNDER 18 MAY BE LEGITIMIZED

New Law Gives Courts Discretion to Decide on Annulment.

ALBANY, March 29.—Annulment of the marriage of twenty-one additional bills by the Governor was made today from the Executive Chamber.

One bill provides that annulment of a marriage shall not be granted on the sole ground that a person was under eighteen years of age at the time of marriage. Power of annulment is vested under the new law, in the discretion of the court.

RED CROSS WILL MOVE FROM GENEVA TO PARIS

Change of Headquarters Will Save League \$15,000 a Year.

GENEVA, March 29. (Associated Press).—The League of Red Cross societies decided today to move its headquarters from Geneva to Paris. It was explained the change would reduce expenses \$15,000 a year.

The League unanimously adopted the principle that all nations be allowed to join, after the French delegate had declared the League no longer opposed the entrance of Germany.

Junior League Members Who Will Take Part In 'Zero,' to Be Seen in Broadway Theatre

Some of the girls who are prominent in the production of a new charity vehicle to be staged by the young set. Mrs. Dalton wrote the score of the play and also will take a leading part.

MAYOR SEES GHOST IN NEW TAX LAW, SO HE MAY VETO IT

(Continued From First Page.)

given such excellent service as Dr. Brown.

There were many organizations present in favor of the bill, but without it was useless to argue with the Mayor. Among these organizations were the Merchants' Association, Hotel Men's Association, Fifth Avenue Association, National Highway Association, and National Traffic Association, and Special Deputy Traffic Commissioner Harris.

ENRIGHT WANTS TO BE IN FULL CONTROL

It was plainly evident that unless Mr. Enright could have complete power over all taxicabs now operated by the Bureau of License he wanted the Mayor to veto the measure. In other words, the present employees of the License Department who have been appointed from civil service lists and have given many years of faithful service, would have their jobs jeopardized or else the Mayor wouldn't sign the bill.

Assemblyman Steinberg expressed the opinion that someone might have influenced the Mayor against the bill while he was on his way to or from Chicago.

"I saw this bill before I went to Chicago," replied the Mayor with considerable heat. "And I want you to understand that the trip had no effect upon me."

"There are now between 16,000 and 20,000 taxicabs in this city," said Miss Loeb, who has been instrumental in securing all present taxicab ordinances. "And because of this number it is imperative that the Police Department should have jurisdiction and enforce the ordinance."

Miss Loeb added she could not understand what was the power. The Police Commissioner could desire that that conferred on him in the first and second paragraphs which she read, as follows:

The Police Department shall have cognizance and control of the licensing of public hack and cabs and of drivers of public hack and cabs under all laws or ordinances, now existing or hereafter enacted, providing for such licenses. All of the powers and duties in relation to the licensing of such hacks and cabs and drivers of public hack and cabs shall be vested in the Police Commissioner of the City of New York.

CHIEF OF BUREAU MAY BE REMOVED ON CHARGES

2. Bureau and chief thereof. There shall be a bureau in the Police Department to be known as the "Bureau of Licensing Public Hack and Cabs and Drivers of Public Hack and Cabs." This shall be charged with the duty, under the general direction of the Police Commissioner, of enforcing in law and ordinance in relation to the licensing of public hack and cabs and drivers of public hack and cabs.

The said bureau shall be under the immediate direction of a head to be known as Chief of the Bureau, who, except the chief inspector, shall be appointed by the Police Commissioner. The chief of the said bureau shall be removable by the Police Commissioner for cause after a hearing upon charges.

After reading this the Mayor reacted for a moment and then suggested that Chief Magistrate McAdoo and Assemblyman Steinberg see the Corporation Counsel as soon as possible, as to whether or not it is given more power to the Police Commissioner than it now has, and as to whether or not it is a violation of the Charter.

The Mayor is not nearly so evasive who appeared in favor of the bill of

MRS. ROOSEVELT HOME FROM TRIP TO SOUTH AMERICA

Mrs. Theodore Roosevelt, widow of the former President of the United States, returned home today on the Olympic. She had been visiting in South Africa for some time.

"I saw this bill before I went to Chicago," replied the Mayor with considerable heat. "And I want you to understand that the trip had no effect upon me."

"There are now between 16,000 and 20,000 taxicabs in this city," said Miss Loeb, who has been instrumental in securing all present taxicab ordinances. "And because of this number it is imperative that the Police Department should have jurisdiction and enforce the ordinance."

Miss Loeb added she could not understand what was the power. The Police Commissioner could desire that that conferred on him in the first and second paragraphs which she read, as follows:

The Police Department shall have cognizance and control of the licensing of public hack and cabs and of drivers of public hack and cabs under all laws or ordinances, now existing or hereafter enacted, providing for such licenses. All of the powers and duties in relation to the licensing of such hacks and cabs and drivers of public hack and cabs shall be vested in the Police Commissioner of the City of New York.

COLLECTIONS SPENT FOR RELIEF, PASTOR SAYS

Contribution Box Not "Soliciting" Alliance Contends.

According to the Rev. Edwin J. Hollman, sixty-two years old, President of the Golden Rule Alliance of America, who has been cited to a Magistrate's Court by Commissioner of Welfare Officer April 4 to explain why he is not violating the new law of soliciting charitable contributions without a license, no officer or director of the Alliance has ever received any money.

"Our collections have been spent in immediate relief to applicants," Mr. Hollman said. "and if there was any surplus it was to be used to a home for the blind. The money has about \$100,000 for the blind through the country. These are about \$100,000 in New York City. We contend that the placing of a contribution box is not 'soliciting' within the meaning of the law. If the court decides against us, we probably intend to appeal."

Some friends of Robert Brindeell, wealthy building trades union leader, are working to try to have the so-called Westfall bill approved by Gov. Miller. The bill allows a criminal to apply for parole after he is served thirty months.

Chief of Bill Brindeell will be charged with a free trial. The bill is now in the hands of the Governor.

GAS "REDUCTION" 116 PER CENT RAISE, DECLARES O'BRIEN

Talks of Appeal to Courts From Public Service Commission Decisions.

The \$1.16 rate fixed by the Public Service Commission yesterday, at the same time authority was given the Kings County Lighting Company to change the quality of its gas to 525 B. T. U. in an increase of 116 per cent over the 50 cent rate for 22-candle-power. Corporation Counsel O'Brien declared today.

The rate which Chairman Frederick and his colleagues heretofore yesterday as a reduction is not a reduction at all," he said. "The \$1.16 rate for 525 British thermal unit gas is the same as the \$1.25 rate for 450 B. T. U. gas. The rate for 525 B. T. U. gas is the same as the \$1.25 rate for 450 B. T. U. gas. The rate for 525 B. T. U. gas is the same as the \$1.25 rate for 450 B. T. U. gas."

The 4,000 customers of the New York City Gas Company, serving the northern parts of Queens, asked the Public Service Commission today to raise a rate begun in 1916 and thus release \$150,000 of their money.

The commission on April 12, 1921, issued an order granting the company, part of the Brooklyn Union system, authority to charge \$1 a thousand cubic feet from that date. The company had raised the rate from 50 cents to \$1 on May 25, 1916, and refused to give back the 15 cents for every thousand it had been collecting in excess of the charge at lowest.

The company, through Col. A. N. Dickinson, asked the commission to take further testimony so as to make the \$1 order retroactive to May 25, 1916, to "fill the gap." The commission asked that the rate be officially marked closed, which marking appears to have been omitted through oversight. Efforts to obtain a refund of the \$150,000 held by the bank of Long Island have failed in court because the case was not marked closed.

MRS. M'CORMICK'S LACES IN CUSTOMS SNARL

Collecting Vanties \$600,000. Claiming Antiques Have Been Remade.

CHICAGO, March 29.—The import collection of old laces in the world outside of the Vatican in Rome, property of Edith Rockefeller McCormick, was held today by Nels J. Lund, United States Collector of Customs for Chicago.

The laces, valued at more than \$100,000, were brought to Chicago from Zurich, where they were the gift of her father, by Mrs. McCormick. Mrs. McCormick petitioned that the laces be allowed into the country duty free, because they are antiques. In case duty is charged it will cost her about \$50,000. The eighteen pieces were made from hundreds of small parts from all Europe.

CHILD BUS OF AUTO ENCHAINS

Phonograph Wrecked, Auto Seized, of No. 357 W. 17th Street, was run over today in front of her home by an auto owned by Louis Charney, owner of No. 357 W. 17th Street, the Bronx, she died at Lincoln Hospital of a fractured skull.

NEW \$500,000 LAUNCH FOR HARBOR

WASHINGTON, March 29.—A \$500,000 launch is to be attached to the Navy Department's fleet of tugboats. It is said to have cost \$50,000.

MISS STONE TAKES STAND TO-DAY TO TELL OF SLAYING

Divorce Suit by Nurse as Common Law Wife Brought Into Case.

WOMEN CROWD COURT

Witnesses for Prosecution Describe Shooting of Ohio Lawyer in Brooklyn.

In anticipation of seeing Olivia M. P. Stone in the witness chair and hearing her story of why she killed Ellis Guy Kinkaid, whose common law wife she has claimed to be, Justice Aspinall's Court in Brooklyn held an audience today in which there were more women than men.

The case for the prosecution drew to a close today. Assistant District Attorney Warkness having called about a dozen witnesses. It was the intent of Edward J. Reilly, Miss Stone's attorney, to place her on the stand as the first witness in her behalf.

Since the actual trial was begun yesterday, Miss Stone had hidden her face in her hands, her shoulders heaving with emotion from time to time.

Among the last witnesses called by the prosecutor during the forenoon session, James H. Nottage, a cigar salesman, of No. 86 South Elliott Place, testified that on the afternoon of the shooting he was at home, looking out of the window, and saw a woman shoot a man twice. Then, when the victim fell to the ground, the woman fired three more shots into him, those entering his back as he lay in the street.

John J. Harwick, a decorator, of No. 52 Fulton Street, stated that he saw Miss Stone talking with a man in South Elliott Place, and that after several minutes she opened a small black bag, drew out a revolver and shot the man.

Papers in an action for divorce which Miss Stone brought against Kinkaid, and in which she called herself Olivia Kinkaid, were brought into the case to-day. Although the action was brought in 1921, the papers were not filed until last week.

600,000 WORKERS MORE LOCKED OUT

Forty-Seven British Unions Affected in Addition to Amalgamated Engineers.

LONDON, March 29.—The Engineering Employers' Federation today posted notices locking out the members of forty-seven unions, in addition to the Amalgamated Engineers Union. The lockout is to take effect in one week and will affect 600,000 additional men.

The grand total of the workers affected is \$50,000.

The Engineering Union this morning decided to ask the mediator to endeavor to resume informal negotiations with the engineering employers.

In the shipyard's strike all workers in the Teeside Middlesbrough yards went out to-day, and except for a few apprentices and laborers all yards are idle. Similar conditions prevail at Barrow, on the Tyne at Jarrow and at Sunderland.

POLICE ON TRIAL TELL OF HOOGH PARTY AT HOTEL

One Says Captain Was in "Abnormal Condition" When He Reached Room.

Three policemen accused of getting drunk in a room at the Hotel Arthur.

No. 252 West 38th Street, on the night of March 3 told their stories to-day when they were tried before Deputy Commissioner Leach. They admitted that drinks "were had," but denied knowledge of any violation of the Volstead act.

The men are Patrolmen Percival Cassidy, Daniel J. Collins and Hugh M. Conlin. Collins, the only one of the trio who denied personal indulgence from the bottle, gave this version:

"I met Cassidy and Conlin, and, after a bit at the Automat, we went to the hotel and up to the room of an actor named Howley, where refreshments were served. Conlin fell down and hurt his nose, and we put him to bed."

"Then in came Capt. Howard in an abnormal condition. He said he was going to telephone the station."

Decision was reserved.

INTERIOR DEPT. GETS NAVY COAL MINES

Alaskan Holdings to Be Transferred May 1, Fall Announces.

WASHINGTON, March 29.—The Navy Department's entire investment in Alaskan coal lands, principally the Chukotkan mines, will be transferred to the Interior Department, effective next May 1, it was announced today by Secretary Fall.

LUCKY STRIKE
"IT'S TOASTED"

ONE of those 20-ft. putts. Down in four. A lucky strike, all right!

When we discovered the toasting process six years ago, it was a lucky strike for us. Because it's toasted the Lucky Strike Cigarette has a remarkable quality, impossible to duplicate. The delicious Burley flavor is sealed in. Try it today.

Guaranteed by **The American Tobacco Co.**

VERY DOLLAR INVESTED in advertising represents a source of potential revenue practically impossible to estimate.

We have already told you this week of the poultry raiser who realized \$60,000 from a \$175 advertisement in THE SUNDAY WORLD.

The experience of this advertiser seems to have been wholly eclipsed by the results accruing from the insertion of an advertisement in the Real Estate Department of THE WORLD two months ago.

The advertisement in question cost \$3.60, and offered fourteen houses for sale in one of the rapidly developing home-builders' sections of the city.

Up to date nine of these houses have been disposed of through inquiries received from THE WORLD, representing total sales in excess of \$126,000.

This is the most conclusive evidence of the supremacy of THE WORLD in Real Estate advertising.

It is of still greater significance to the general advertiser, as indicative of the ability of WORLD readers to buy their own homes and the varied merchandise that goes into these homes.

Letters covering both of the above cases are on file in the office of

The World
